

FARRAGUT™

Software Developer

Farragut Systems is seeking to enhance our team with experienced software developers. We are looking for bright, energetic, self-motivated individuals who are familiar with the Agile methodology and SCRUM process and have a desire and aptitude to manage diverse technical challenges.

Key Responsibilities:

- Development, testing, deployment, and maintenance of applications using .NET platform, C#, and SQL.
- Understanding project processes and using them efficiently as directed by supervisor(s).
- Serving as lead developer on key projects.
- Agile software development
- Active participation in all team activities.

Required Qualifications:

- 5-8+ years of demonstrated experience in developing and testing web applications and web services and a good understanding of the SDLC using Microsoft.NET (Framework/Core), fluent C#, web application front-end development, and Relational Databases
- Experience working with MS SQL with understanding of data model design and performance optimization
- Passion about process improvement and willingness to share ideas and insight
- Bachelor's Degree in Computer Science, Mathematics, Physics, or Statistics

Preferred Qualifications:

- Team/Project Lead experience is a plus
- Experience in an Agile environment with daily scrums, sprint planning, and retrospectives

Technically qualified applicants should also have the following personal and team skills:

- Strong verbal and written communication skills
- Strong personal commitment to the success of the project
- Be a team player
- Willingness to mentor/train other team members as required

FARRAGUT™

Compensation & Benefits:

The salary for this position is determined based on candidate's previous work experience, current technical abilities and market salary information.

Farragut offers a competitive benefits package with benefits starting on your very first day of employment. Benefits for full-time employees include:

- 20 days of paid time off + 7 paid holidays each year
- Comprehensive Medical Insurance, with FSA or HSA options
- Vision & Dental Care
- 401k Matching
- Life Insurance, including both short & long-term disability
- Education assistance
- 8 paid volunteer hours per calendar year

About FARRAGUT

Farragut is a provider of software solutions for the Workers' Compensation and Local Government markets. Specifically, we have created software that automates manual transactions and stores important data for Workers' Compensation Bureaus and NC counties. Farragut's systems allow our clients to better utilize their resources and to do their work more efficiently.

Farragut's purpose is to transform with trust. We work to transform how our customers conduct their business by earning their trust and delivering continuous innovation. We lean on our three pillars of integrity, innovation and being service driven throughout the process. Farragut offers an environment where people who are passionate about achieving meaningful results, value innovation, and embrace our customers' objectives as their personal responsibility can excel.
